Re: K. Lyn Hamacher, M.D.

Dear Dermatology colleague:

It is with great pleasure that we announce the addition of Dr. K. Lyn Hamacher, M.D. to our dermatopathology service here at Sonora Quest Laboratories.

Lyn completed her residency in Dermatology and subsequent fellowship in Dermatopathology at the Mayo Clinic, in Rochester, Minnesota, in 2004. She has worked since that time as Assistant Professor of Dermatology and as a Dermatopathologist for the Mayo Clinic, and will continue to function in that capacity here at the Scottsdale Mayo Clinic on an intermittent basis. Dr. Hamacher has worked this past year with Sonora Quest Laboratories doing Locum Tenens. We are thrilled that she has chosen to join our practice on a permanent basis.

Sincerely,

A handwritten signature in cursive script that reads "Steven L. Alder, M.D.".

Steven L. Alder, M.D.
Director of Dermatopathology
Sonora Quest Laboratories
