* The CPT codes provided are based on AMA guidelines and are for informational purposes only. CPT coding is the sole responsibility of the billing party. Please direct any questions regarding coding to the payer being billed.

This list is intended to assist ordering physicians in providing ICD-10 Diagnosis Codes as required by Medicare and other Insurers. It includes the most commonly found out-patient diagnoses (generally without complications), but is not complete.

This list was compiled from the ICD-10-CM 2015, as well as the Medicare Regulations and Manuals issued or authorized by the Centers for Medicaid and Medicare Services. An ICD-10-CM book should be used as a complete reference. The ultimate responsibility for correct coding belongs to the ordering physician.
