Step 4: Print your name & mark each test being requested by placing an "X" in the box Please do not eat or drink anything except for water for 8-12 hours before your test. DO NOT stop taking your prescription medications. If your doctor advised you to take your medication with food, consult with your doctor before fasting.
 ■ Test results may be falsely increased or decreased in patients taking therapeutic doses of biotin and should therefore be interpreted cautiously. Biotin is a water-soluble B-vitamin, also called vitamin B7 and formerly known as vitamin H or coenzyme R and may be found in supplements intended to improve skin, hair, and nail health. Please consult your physician to discuss your results if you are taking therapeutic doses of biotin. Print Name: (Last, First, Middle)
