For High Quality Lab Services, Head Home: New Mobile Phlebotomy Service from Sonora Quest Laboratories

Special Feature Pages Eight and Nine

Mobile Phlebotomy Moves The Needle, Bringing Lab Collection To You

Sonora Quest Laboratories Launches Home and Business Mobile Sample Collection Services

Sonora Quest Laboratories, Arizona's largest integrated laboratory system and provider of diagnostic laboratory services, now offers mobile services to residents of the Biltmore area. You now have the option to get blood testing done in your home or place of work with Sonora Quest's new mobile sample collection service.

The service gives you the option to schedule a convenient time and location for a Sonora Quest phlebotomist to come to you for blood sample collection. Mobile phlebotomy is offered as an alternative to traditional blood collection performed at Sonora Quest's patient service centers. While Sonora Quest does have 75 physical locations throughout the state, having the option to skip the line and avoid the rush can be a time-saving convenience.

Mobile sample collection services are ideal for customers with busy schedules who prefer Sonora Quest come to them, for homebound patients who are not able to travel to a patient service center, as well as for pediatric or special needs individuals who are more comfortable with sample collection performed in the comfort and privacy of their own home.

"This new service is another example of Sonora Quest's commitment to making access to high quality lab services more convenient and timely for Arizonans," said Christina Noble, Chief Growth Officer at Sonora Quest.

"This initiative will greatly benefit patients that want a convenient option for blood collection or have difficulties in visiting our physical locations, helping them receive the testing needed to better manage their health for improved outcomes. We are the only full-service lab in Arizona providing this service directly to consumers."

The mobile phlebotomy service is available for both blood tests ordered by your doctor and for tests that you can order directly through Sonora Quest's My Lab ReQuest™ program. My Lab ReQuest is a service Sonora Quest has offered since 2015 that

allows consumers to take control of their health by ordering certain lab tests on their own, without a doctor's request.

Sonora Quest believes that it is vitally important that Arizonans have the most accurate and up-to-date information needed to proactively manage their health and make educated decisions. While the management of personal health is most effective when it involves a partnership with a health care provider, Sonora Quest can help you take a more active role in your health through direct-to-consumer lab testing and home collection services.

My Lab ReQuest offers customers affordable lab tests to track personal wellness goals, monitor a chronic condition or confidentially screen for infectious diseases. Nearly 70 lab tests are available to be ordered with 43 of those tests priced at \$45 or less. You can order and pay for your own tests and schedule sample collection in your home or place of work all in one stop at SonoraQuest.com. My Lab ReQuest results come directly to you and can be easily obtained through the SonoraQuest.com patient results portal.

Sonora Quest's mobile phlebotomy service is available for most routine lab tests such as the Complete Blood Count (CBC), Lipid Panel, Hemoglobin A1c, Glucose, and other routine blood tests. Appointments are available Monday through Friday in two-hour windows from 7:30 a.m. until 3:30 p.m. Sonora Quest's mobile phlebotomists are State-certified, properly credentialed, background checked and have extensive experience. As the demand grows, Sonora Quest expects to expand this new service to other Arizona markets including Tucson, Flagstaff and Prescott.

You can schedule an appointment on any device at SonoraQuest.com or schedule by phone by calling (602) 685-5000 and selecting option 5.

Lab Tests Made Easy

Sonora Quest makes managing your health affordable and convenient.

Step 1: order your tests through My Lab ReQuest online.

Step 2: Schedule mobile collection services to be performed in the comfort of your own home.
